Subject: RE: Dewey Burdock Consultation

Thanks, Valois, be sure to send me a copy of the letter and a list of the participants. Thanks

Alfreda: will I need to create a break-down of the consultations to specific tribes or can I post under the existing record?

Hi Jennifer,

The Dewey Burdock consultation isn't over. We plan to talk about our next steps for our NHPA 106 process and introduce the EPA consultation process. Once we let them know about the EPA consultation process, we will send out the invitation letters for that.

Subject: Dewey Burdock Consultation

Good morning, Valois, hope you are doing well. I just got an email from Sam Vance that went to the Tribal ROC about Dewey Burdock and it sounds like consultation may be over with, is that the case? And if so, can I get a summary (a paragraph b/c the system only takes a summary and has a limit on characters)? thanks

- The Dewey Burdock project is continuing to move forward. Region 8 is participating in the process of permitting and ensuring the proper installation of proposed injection wells in the subject area. This project has potential impacts to multiple Region 8 tribes due to its location in or near the Black Hills. It has been suggested

that the RTOC meeting would be a possible location for further consultation with impacted tribes and, in particular, discussion with those tribe's Tribal Historic Preservation Officers (THPOs). The discussion and comment is a key component of complying with Section 106 of the National Historic Preservation Act. Time either during the RTOC proceedings or as a break out session have both been suggested as topics for this upcoming meeting.
